South East Europe Neurosurgical Society (SeENS)

INTRODUCTION

Dear Colleagues,

We would like to inform You that a South East Europe Neurosurgical Society (SeENS) has been established (www.seens.eu)

SeENS was established by neurosurgeons from Croatia, Serbia, Slovenia and Bosnia and Herzegovina in October 2012. and registered in Zagreb, Croatia in November 2012. as a non-profitable, non-political Society of neurosurgeons that are willing to act *bona fide* in order to achieve better communication and collaboration between neurosurgeons from SE part of Europe.

Upon establishment the invitation to other states of the region (Macedonia, Montenegro, Albania, Kosovo, Bulgaria, Romania, Hungary, Greece, Cyprus and Turkey) was sent with a goal that neurosurgeons from all over the SE part of Europe actively participate in this Society.

After intense meetings, followed by an constitution hall and three executive board meetings, the founding members finally met in Sarajevo. The Sarajevo Executive Committee meeting was organized on 7th June 2013 and this is where the South East Europe Neurosurgical Society took its first breathe as a fully-fledged, regulated and constituted scientific society. Wasting no time, **the Executive committee meeting brought final shape to SeENS's Statute, the internal regulatory bodies and the Presidency have been formed and accepted, the Society's mission and vision have been committed to paper and the Executive committee welcomed in its final roster.**

All the neurosurgeons and neurosurgical Societies not only from SE part of Europe but from the whole Europe are welcome to be members and to actively participate in this regional neurosurgical Society.

The European Association of Neurosurgical Societies (EANS), the Central European Neurosurgical Society (CENS) and World Federation of Neurosurgical Societies (WFNS) have been informed about the establishment of the SeENS. We have to emphasize that SeENS idea and Society have full support from the President of the EANS (Professor Vladimir Benes), President of the CENS (Professor Juraj Steno) and President Elect of the WFNS (Professor Yong-Kwang Tu).

Society have full support from the President of the EANS (Professor Vladimir Benes), President of the CENS (Professor Juraj Steno) and President Elect of the WFNS (Professor Yong-Kwang Tu).

Since the whole concept behind SeENS is the same as the governing principles driving **EANS** (European Association of Neurosurgical Societies) and **WFNS** (World Federation of Neurosurgical Societies), the newly formed **SeENS immediately submitted it's applications for affiliation** within these two world renowned institutions. On both sides the application was met with great approval - the EANS will discuss accepting SeENS as its affiliate member during the next Annual meeting scheduled to be held in Tel Aviv, from 11th - 14th November 2013. The WFNS will announce the date of the proclamation. It was decided that the first SeENS Congress should be organized in Belgrade October 30th–November 2nd 2013.

The SeENS Congress was officially presented to the EANS and it is listed in the official EANS list of 2013. events (www.eans.org/events/).

In the hope of strengthening the SeENS idea and moral values of integrity, teamwork and sharing it was built on, we look forward to receiving your support.

Once again we would like to invite You to the First SeENS Congress in Belgrade October 30th-November 2nd 2013. It would be our great pleasure if You could find time in Your busy schedule and take an active part at the Congress.

Looking forward to our future collaboration.

Sincerely,

Krešimir Rotim
SeENS President

Lukas Rasulić
SeENS Vice-President

Tomislav Sajko
SeENS Secretary

South East Europe Neurosurgical Society - The Founding Editorial

As with all initiatives, the **South East Europe Neurosurgical Society (SeENS)** began as an Idea - an idea thoroughly engulfed in the pillars of knowledge, sharing, support and advancement through borderless collaboration. It is based in the basic human thirst for knowledge and betterment of oneself, as well as his/hers surroundings. In short, SeENS is all about the people it brings together.

Having all this in mind, and given the fact that we come from the Balkans (a rather turbulent area to live and work in, even in the best of times) we rather soon realized the importance of teamwork, support and sharing. For without any one of these three, chances are you won't make it in this place - and this is no understatement.

Since the beginning of my career, I had the luck and privilege to meet many like-minded people that soon became my teachers and, as the years passed us by, have grown into people I fondly call friends. Our mutual friendship is one based on professional interest, similar goals and hunger for knowledge - and, as a team, we slowly but steadily managed to gather all of these. Of course, as the saying goes, the more we've been learning the clearer the lacks and gaps in our knowledge...but it was much easier to point them out to each other and even easier to patch them with the techniques and experience we were missing. And this goes on 'till this day.

So, having all the ingredients needed for the Idea's growth and development, such as clear guidelines, common goals and good professional climate, the SeENS slowly but surely started to surface in the real world. The South East Europe Neurosurgical Society began taking shape, and as it did so, so was our mission clearer to all participating parties...and there is a number of them, as will be outlined in more detail soon.

SeENS - Laying the Foundations

The South East Europe Neurosurgical Society is to become a professional society, a sort of guild, dedicated to the betterment of all things related to Neurosurgery as a whole. The region of its influence, as the name clearly states, is that of South East Europe. The soon-to-be Society has to provide support to all neurosurgeons and help them advance in their craft. By doing so, it does not only influence their individual lives, but the region as well - with more educated, trained and adapted neurosurgeons, faster and more reliable operations, better recovery rates, more success stories are more realistic in obtaining...the possibilities are endless!

It was during two congresses of Croatia's Neurosurgical Society, in 2008 (Dubrovnik) and 2011 (Opatija), that the idea and need for a unified Southeast Europe Neurosurgical Society was made clear. The society, as a governing body, was to unite the whole region and promote the values of the EANS (European Association of Neurosurgical Societies) and WFNS (World Federation of Neurosurgical Societies). At this moment in time did **Prof. dr Krešimir Rotim** (Zagreb, Croatia), **Prof. dr Lukas Rasulić** (Belgrade, Serbia) and **Dr Tomislav Sajko** (Zagreb, Croatia) started debating the possibility of creating the SeENS, as well as what would be needed for this idea to become reality.

Being pragmatic (as all neurosurgeons are), the discussions soon transformed into action – and so their work started taking shape, like a statue emerging under a sculptor's chisel.

The **October 2012** EANS Annual meeting (held from 24 - 27th October 2012 in Bratislava, Slovakia) was an excellent opportunity to further discuss the SeENS idea. And so it was that, during the EANS meeting, did **Prof. dr Krešimir Rotim**, **Prof. dr Lukas Rasulić**, and **Dr Tomislav Sajko** conclude that the SeENS is to be founded. Previously, the founding of SeENS has also been discussed with **Dr Ibrahim Omerhodžić** (Bosnia and Herzegovina), **Prof. dr Marjan Koršič** (Slovenia) and **Prof. dr Aleksandar Čaparovski** (Macedonia) **Dr Novak Lakičević** (Montenegro) – it was that with full approval and support of the mentioned parties, have we proceeded into forging the South East Europe Neurosurgical Society. Given the international nature of the Society, one that is aimed at providing a cross-cultural and multilateral bridge, it was decided, through a unified stance by all above mentioned parties, that the SeENS Founding act will be based on Public International Law. As their next meeting point they have chosen Belgrade.

During their discussions it was decided that SeENS, as a Regional society that is to become a representative of Southeast Europe, is to be registered in Zagreb (Croatia) while the 1st Congress of the Southeast Europe Neurosurgical Society (31st October - 2nd November 2013) is to be held in Belgrade. Belgrade has been given this honor as a tribute to two great landmarks in the history of Serbian Neurosurgery – the celebration of 90 years of Neurosurgery in Serbia (making it one of the oldest Neurosurgical department in the Region), as well as 75 years of the Clinic for Neurosurgery at the Clinical Centre of Serbia.

Recientemente se llevó a cabo el Congreso Internacional Reconstrucción Compleja de Hombro y Transferencias así como Talleres de Cadáver de Disección, organizado por Mielina Clínica Plexo Braquial y el Hospital Real San José Valle Real.

Los anfitriones, Jorge Clifton, CEO de Mielina Clínica Plexo Braquial y Joaquín Jiménez, Hospital Real San José Valle, recibieron a los invitados cordialmente, entre ellos se contó con la presencia especial de los doctores Laurent Lafosse de Francia, Fernando Valero González de México, Bassem T. Elhassan de Estados Unidos y Leonardo López Almejo Expresidente FEMECOT, quienes compartieron sus técnicas innovadoras e inigualables de transferencias musculares y nerviosas, las cuales son técnicas que han ayudado a muchos pacientes de todo el mundo.

Asimismo, en el marco de este congreso se realizó un homenaje por su trayectoria a los distinguidos doctores Laurent Lafosse y Fernando Valero González.

El evento estuvo dirigido a cirujanos ortopedistas, cirujanos de mano, médicos rehabilitadores, cirujanos plásticos, neurocirujanos, terapeutas, neurólogos y pediatras, quienes disfrutaron de un congreso en el que participaron doctores de Francia, Estados Unidos, India, Chile, Alemania, Brasil, Serbia y México, además de conocer los grandes avances en el ámbito de la medicina.

Durante éste se ofreció un *coffee break* permanente y se sirvió un cóctel de bienvenida de Casa San Matías.

The 9th SNSS Annual Meeting and the 10th SNSS Congress with international participation

"Focus. Dedication. Specialization"

Belgrade, Serbia, 30/10/2023-03/11/2023

OFFICIAL REPORT

The 9th SNSS Annual Meeting and the 10th SNSS Congress with international participation "Focus. Dedication. Specialization" took place at Hotel Crowne Plaza, Belgrade, Serbia, from October 30th to November 3rd, 2023.

This Meeting was organized as a Joint venture with the European Association of Neurosurgical Societies-EANS, the World Academy of Neurological Surgery-WANS, the Continental Association of African Neurological Societies-CAANS, the Society of British Neurological Surgeons-SBNS, the Italian Society of Neurosurgery-SiNch, the Turkish Neurosurgical Society-TNS, the Hellenic Neurosurgical Society-HNS, the International Academy of Neurosurgical Anatomy-IANA, and the Southeast Europe Neurosurgical Society-SeENS, hosted by the Serbian Neurosurgical Society (SNSS).

The Meeting has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 34 European CME credits (ECMEC®s) and by the Health Council of the Republic of Serbia as an International Congress.

"Focus. Dedication. Specialization" gathered 1.310 participants from 62 countries worldwide in total.

The Meeting was held under the auspices of the President of the Republic of Serbia, H.E. Mr. Aleksandar Vucic, and under the Aegis of the Ministry of Health Republic of Serbia and Minister of Health, Prof. Dr. Danica Grujicic, endorsed by the Ministry of Science, Technological Development and Innovations and Minister, Dr. Jelena Begovic, and the Ministry of Education and Minister, Prof. Dr. Slavica Djukic Dejanovic.

The importance of the event has been recognized by all the relevant institutions in the Republic of Serbia.

To stimulate neurosurgeons, especially young ones, 20 grants (free registration and accommodation) for the best papers selected by the Scientific Committee were provided.

The Meeting in pictures

During the neurosurgical week from October 30 to November 3, 2023, each day was dedicated to one of the neurosurgical clinics and centers from Serbia, which hosted that day as a joint meeting with visiting international associations, representing the most important professional and neurosurgical associations worldwide.

On October 29-30, 2023, the Partners of the Erasmus+ (KA220-HED -Cooperation partnerships in higher education) project met in Belgrade. The project Supporting medical students in making informed decisions for their neurosurgery residency pathways - Neuro(de)cision project has been implemented by partners: Humanitas University, Italy; International Neuroscience Institute - Hannover GmbH, Germany; University of Belgrade, Serbia; Lusíadas, S.A. Portugal

In the evening, the Welcome cocktail for faculty and participants of the neurosurgical week was held in the Hotel Crowne Plaza.

Picture 1. Neuro(de)cision project Partners' meeting, October 29-30, 2023

Picture 2. Welcome cocktail, October 29, 2023

On October 30, 2023, the host was the Clinic for Neurosurgery, Clinical Centre of Vojvodina, which held a joint meeting with the World Academy of Neurological Surgery – WANS. Numerous sessions were held, including 1 Plenary session, 6 Parallel sessions, a Special symposium on Intraventricular tumors, the AI in Spine Surgery Symposium of the Schulthess Klinik Zurich, the Augmented & Virtual Reality Course, and Students Hands-on Suturing Course.

The retired professors of the Clinical Center of Vojvodina, Prof. Dr. Tomislav Cigic, Prof. Dr. Djordje Jajic, and Prof. Dr. Ljubomir Popovic, received special acknowledgments for their significant contribution to the development of neurosurgery in Serbia.

Picture 3. Scientific sessions and courses, October 30, 2023

In the evening, the SNSS, EANS & WANS Dinner was held in the Red Queen Restaurant in Belgrade.

Picture 4. SNSS, EANS & WANS Dinner, October 30, 2023

The emergence of neurosurgery in Serbia officially dates to 1923, when Milivoje Kostic performed his first surgical treatment of a pituitary tumor via the nose. On October 31st, 1938, Milivoje Kostic established a special Department of Neurosurgery within the Clinic of Surgery in Belgrade, and his brother, Slobodan Kostic, was named the first head of the department.

Thus, October 31st is the day of Serbian Neurosurgery and Neurosurgery Clinic UCCS. October 31st, 2023 was the day of the Central Celebration and the Ceremonial Academy. The host was the Neurosurgical Clinic, University Clinical Center of Serbia, which held a joint meeting with the European Association of Neurosurgical Societies – EANS.

The day started with the Opening ceremony in the Crowne Plaza Hotel. The Special Envoy of the President of the Republic of Serbia, Mrs. Verica Lazic, provided the support along with numerous ambassadors, representatives of the Government of the Republic of Serbia, and the academic community.

Co-Presidents of the Meeting, Prof. Dr. Milos Jokovic, Director of the Neurosurgery Clinic UCCS, and Prof. Dr. Lukas Rasulic, President of the Serbian Neurosurgical Society, officially opened the Meeting and welcomed invited speakers, participants, and guests.

Prof. Dr. Danica Grujicic, Minister of Health, Dr. Jelena Begovic, Minister of Science, Technological Development and Innovations, and Prof. Dr. Slavica Djukic Dejanovic, Minister of Education, addressed the audience and gave support on behalf of the Government of the Republic of Serbia. The Opening ceremony continued with the welcome speeches of the Dean of the Faculty of Medicine University of Belgrade, Prof. Dr. Lazar Davidovic, and the President of the EANS, Prof. Torstein Meling.

Prof. Dr. Milos Jokovic gave the presentation about the Neurosurgery Clinic UCCS and Foundations and landmarks of Serbian Neurosurgery: Slobodan Kostic, while Prof. Dr. Aleksandar Simic, Chief of the Department of Surgery Faculty of Medicine University of Belgrade, gave the presentation Foundations and landmarks of Serbian Neurosurgery: Milivoje Kostic. The Opening ceremony finished with the Special guest lecture Development of neurosurgery in the last 100 years and my contribution for neurosurgery in half a century by Prof. Dr. Madjid Samii, President of the International Neuroscience Institute, Hannover, Germany, and Honorary President of the World Federation of Neurosurgical Societies.

Picture 5. Opening reception, welcome addresses, October 31, 2023

Picture 6. Opening ceremony, speeches, October 31st, 2023

After the Opening ceremony, two Contemporary neurosurgery sessions were held with 25 lectures given by worldwide renowned experts from Europe, Asia, North and South America. In the evening, the National Theatre hosted the Ceremonial academy followed by the Ceremonial Dinner.

On November 3, 2023, the hosts were Center for Neurosurgery, University Clinical Center Kragujevac and Department of Neurosurgery, Clinical Hospital Center Zemun, which held the joint meeting with Southeast Europe Neurosurgical Society - SeENS & Hellenic Neurosurgical Society – HNS.

The lectures were presented within the various sessions, including 1 Plenary session, 10 Parallel sessions, 2 Free topics sessions. Traditionally, the Young neurosurgeons and students forum was held, and 2 best papers presented by Dr. Nebojsa Lasica from Novi Sad and Laurel Rauschenbach from Essen were awarded with a free participation at the SeENS Congress that will be held in Budapest, Hungary, in October 2024.

Also, the second edition of the Students Hands-on Suturing Course was held.

After the Closing ceremony, all participants enjoyed the Farewell cocktail held in the hotel Crowne Plaza.

Picture 15. Scientific sessions, November 3, 2023

The Meeting in numbers

The meeting was attended by total of 1310 participants from 62 countries, including faculty, participants, industry partners, guests, nursing technicians, medical students and volunteers.

During the extraordinary 4 Plenary sessions, 2 Contemporary neurosurgery sessions, 35 Parallel sessions, 1 IANA Special Course, 1 Augmented & Virtual Reality Course, 2 Students Hands-on Suturing Courses, 2 ERASMUS+ Projects Presentations, 3 Special Symposia, 1 SNSS&EANS YN Event, more than 350 experts introduced participants in all relevant topics from the field of neurosurgery. Around 100 oral presentations within 8 Free topics sessions, and 1 Young Neurosurgeons' and Students' Forum session were presented as well.

Instead of conclusion

Serbian Neurosurgical Society expresses sincere gratitude to colleagues from the European Association of Neurosurgical Societies, the World Academy of Neurological Surgery, the Continental Association of African Neurological Societies, the Society of British Neurological Surgeons, the Italian Society of Neurosurgery, the Turkish Neurosurgical Society, the Hellenic Neurosurgical Society, the International Academy of Neurosurgical Anatomy, and the Southeast Europe Neurosurgical Society, for entrusting us with the opportunity to host this joint internationally important scientific event.

Since the 1st SNSS Annual meeting held in Belgrade in 2015, we have succeeded in increasing the visibility and presence of Serbian neurosurgeons in the international neurosurgical community, and many renowned international experts have accepted to attend our meetings. Many things have changed in the first 100 years of neurosurgery in Serbia. But what remains a constant is our clear sense of purpose – continuous enhancement and international affirmation of neurosurgery in Serbia – always keeping in mind that the essence of our profession is, above all, the well-being of every individual patient.

During the Meeting many new contacts were achieved, experiences and ideas were exchanged, plans for further development of mutual cooperation and prosperity of the profession have been agreed. An impressive number of attendees, number of speakers and their importance in the field of neurosurgery, topics and lectures, but also social program have contributed to this event to be evaluated by the participants with the highest grade.

Serbian Neurosurgical Society owes a special thanks to the President of the Republic of Serbia, H.E. Aleksandar Vucic, Prime Minister, Mrs. Ana Brnabic, Ministry of Health and Minister Prof. Dr. Danica Grujicic, Ministry of Science, Technological Development and innovations and Minister, Dr. Jelena Begovic, Ministry of Education and Minister, Prof. Dr. Slavica Djukic Dejanovic, and all members of the Government of the Republic of Serbia.

Our thanks also go to many socially responsible companies and individuals of goodwill who appreciate our activities and have been supporting us for years.

Report brought by

Prof. Dr Lukas Rasulic

Co-president of the Meeting

Serbian Neurosurgical Society, President

They said after the Meeting

*Thanks dear brother Lukas for your thoughtful superb organization and unmatched hospitality. On behalf of your IANA academy faculty please accept our sincere appreciation.
Fond regards, Imad Kanaan*

*It was a great privilege and a real pleasure to return to Belgrade in October 2023 to celebrate the centenary anniversary of Serbian neurosurgery. This was a particularly important milestone, just a year after the landmark EANS 2022 Congress, which we delivered in Belgrade with the excellent collaboration between the EANS and the local team led by the Congress President Lukas Rasulic. I am extremely grateful for the honour of delivering the 2023 eponymous Milivoje Kostic Lecture, named after the father of Serbian Neurosurgery. The scientific as well as the social program were outstanding, and Professors Jokovic and Rasulic excellent hosts. The scene is definitely set for a successful next 100 years.
My warmest wishes to our friends and colleagues in Serbia
Hvala!*

Andreas Demetriades, EANS President 2021-2023

Dear Lukas, what a magnificent meeting! Congratulations on putting together such an impressive gathering and a congress of the highest quality...

*With my very best,
Fady Charbel*

*Poštovani kolega Rasulić, dozvolite mi da vam se još jednom najsrdačnije zahvalim za moje učešće na vašem izuzetno uspešnom kongresu, koji ćemo zauvijek pamtiti. Čestitam !
Sa najlepšim pozdravima
Vaš Vinko V. Dolenc*

*Dear Lukas, thank you again for extending your series of successfully conducted meetings. A True privilege and pleasure to participate in such a smoothly running conference characterized by catering to many senses and by your very generous personality: such hospitality!
Tiit Mathiesen*

*Just landed in Zürich. Was amazing days. Unbelievable! Can't wait to see you again.
As ever.
Carlo Schaller*

Dear all, dear Prof. Rasulic, this was by far the best organized and most fruitful congress I have attended for a long time.

THANK YOU and congratulations.

Philipp Dammann

I am delighted to have participated in this exceptional congress, where the confluence of scientific excellence and vibrant social interactions has left an indelible mark. The program, meticulously curated, seamlessly blends remarkable presentations and engaging discussions. The pioneer speakers have enlightened us with their wisdom. As I reflect on these enriching days, I am reminded that knowledge transcends boundaries, and connections forged here will resonate far beyond the confines of this gathering. Moreover, I had the great pleasure of simultaneously celebrating the centenary of neurosurgery in Serbia and the 100th anniversary of the Republic of Turkey.

Ihsan Solaroglu

Dear Lukas, congratulations. One of the best congresses I have joined. Both, scientific and social parts were amazing. Lafayette was extraordinary. Thanks for having me in Belgrade

Vladimír Beneš

*Dear SNSS Secretariat, dear Professor Rasulic, dear Lukas, thank you very much for sending to me the certificates. But even more, thank you for the unique congress you have organized. **Perfect organization, friendly atmosphere, highest scientific level.** Amazing! Wunderbar! Last but not least, thank you so much for the honor you gave me with the honor membership of the Southeast Europe Neurosurgery Society! □*

My best regards

Marcos Tatagiba

Dear Prof. Rasulic,.. I'm sending this email because I want to sincerely thank you for the invitation and for involving me in this amazing event. I appreciated very much! Your hospitality and of your team has been fantastic!

I'm looking forward to come back in Belgrade,

Giovanni Raffa

Dear SNSS Secretariat, thank you for the invitation and perfect meeting. I am always happy to visit your hospitable country. Please send my kindest and warmest regards to Professor Lukas Rasulic and all Serbian colleagues.

Jamil Rzaev

Dear Lukas. I write to thank you and congratulate you on such a wonderful celebration of the Serbian centenary of Neurosurgery. We are all very proud of you Lukas. Thanks so much and best wishes to you and your team.

Dear SNSS Secretariat. It was truly a wonderful experience. Thank you very much for your support and care before and during the conference.

Best wishes to you all.

Yours faithfully

Professor Bello B Shehu

Dear Colleagues, it was a great pleasure for us taking part at the Centennial Anniversary of the Serbian Neurosurgery in Belgrade! The Congress was from both scientific and social programme point of view unforgettable! It was great to see "old" friends and making new friendships! Looking forward to seeing you in Budapest at the 6th Congress of Southeast Europe Neurosurgical Society and 25th Congress of the Hungarian Neurosurgical Society! Please visit the Congress' website which will be updated regularly! <https://seens2024.eu/>

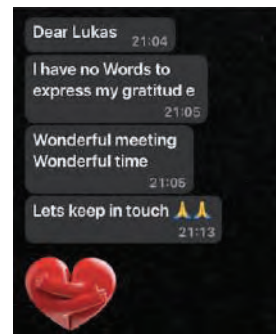

Yours sincerely,

Péter Banczerowski, President, Hungarian Neurosurgical Society

László Sipos, Secretary, Hungarian Neurosurgical Society

Thank you Lukas for a wonderful meeting.
Avinash Haridas

Luis Alenciar Borba

Dear Lukas, it was wonderful to see you again in Belgrade. First of all, I have to congratulate you for your organization, wonderful meeting and superb scientific quality. Secondly, thank you very much for your hospitality. I hope we can increase our relationship in the future. Hoping to see you soon again.

Best regards,
M. Necmettin Pamir

Dear Lukas!
This has been an unbelievable event - once again!!!! Thanks for everything! Get some rest after this week!
All the best also to your family and your team!
Claudius Thome

Dear Lukas, ...I have very found memories from the scientific sessions, and social events...Hope your energy is endless for the good of global education in neurosurgery. Worth to work together with you...
Oscar Alves

Dear Sir or Madam, I would like to thank you for the invitation and for the congress. I appreciate the effort of the whole team that has been put into the event. Special thanks also to Professor Rasulic. Everything was perfect, from the meeting at the airport and the transfer to the accommodation, evening events and of course lectures and scientific sessions. It was taken care for everything and for everyone. Thank you very much and I wish you good luck and good work for the future!
Tomaz Velnar

Dear Lukas, please allow me to give you my gratitude for the invitation to attend this fantastic meeting. It was an honour to celebrate the great achievements of the Serbian neurosurgery with you. The meeting was brilliantly organised, both academically and socially. We hope to see you at our SBNS meetings in the future, especially in 2026 when we will be celebrating our centenary.
All the best,
Yours Ash (Prof Keyoumars Ashkan)

Dear Lukas, I wanted to take a moment to express my gratitude for the warm welcome and the successful congress that you and your team organized. It was truly an honor to be a part of this event, and I am incredibly appreciative of the efforts that went into making it such an unforgettable success. I would also like to extend my thanks to the entire organizing committee, as well as all the volunteers and staff members. I wish you continued success in your endeavors.
Warm regards,
Igor Maldonado

Dear President Lukas It was a tremendous pleasure to visit Belgrade. The event was a success and the atmosphere very friendly. I must to say many thanks for support me and I wish you and your family all the best

With deep admiration
Jose Alberto Landeiro

Dear Lukas my heart felt congratulations on your outstanding meeting. Really unbeatable. A real world class congress. Thank you for inviting us!
Miguel Arraez

Dear SNSS Secretariat, words can no express my gratitude for your hospitality and for organizing such a magnificent neurosurgical meeting . I truly enjoyed the dinner event at the National Theater and the dinner event at the La Lafayette restaurant. I have been attending neurosurgical meetings for over 30 years and your social events have been the best I have ever attended. I sincerely appreciate the opportunity to be part of such an outstanding neurological meeting .
Israel P. Chambi , MD

Thank you very much for everything! That was a fantastic week! Kindest personal regards ☐
Juraj and Andrey Steno

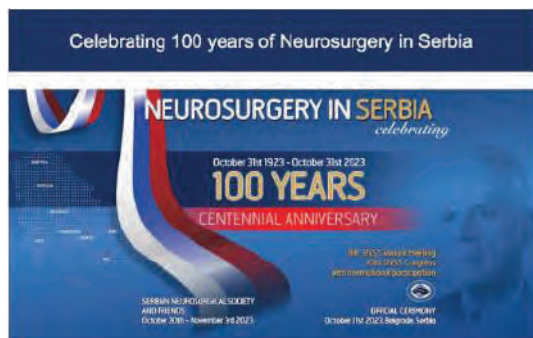

Thank you and congratulations! I am proud to know you. Serbia should be also proud to have a citizen like yourself. Besr regards, Nejat Akalan

Dear Professor Rasulic, I extend my sincere gratitude for the invitation to the congress and commendable organizational efforts. I look forward to the prospect of meeting soon and collaborating together again.
Zefferino Rossini

Hvala vam puno na casti da sudjelujem u jos jednom vrhunskom eventu koji ste organizirali:) cestitam od srca i veselim se skorom druzenju:)
Domagoj Gajski

My dear friend, I am about to take off. I had a great time as usual in Belgrade and I would like to congratulate you once more for the incredible opportunity you offered to all of us and the outstanding success of your event. I think it is unquestionable that you are bestowed with unique dedication to our work and have tried to further implement network and cohesion in our professional community. Given the hard time for WFNS, your dedication and efforts are priceless. I am happy and proud of our long lasting friendship. As the Romans said "Ad Maiora". We will keep in touch and we will fortunately meet up again soon! HVALA!
Debora Garozzo

The Serbian Neurosurgical Society organizes the 9th SNSS Annual Meeting and the 10th SNSS Congress with international participation from 30 October to 3 November in Belgrade, marking two significant milestones in the field of neurosurgery in Serbia; the 85th anniversary of the Neurosurgery Clinic of the University Clinical Center of Serbia and the 100-year anniversary of Neurosurgery in Serbia.

On October 31, 1938, Prof. Milivoje Kostic, one of the pioneers in the field of surgery in this region, established in Belgrade the first neurosurgery department in Serbia and Yugoslavia, only three years after the first neurosurgical department in Germany, in Wurzburg. The Neurosurgery Clinic today is the leading neurosurgical institution in Serbia and the bearer of most activities of the Serbian neurosurgeons.

Neurosurgeons from across Europe have gathered in the Serbian capital for a busy neurosurgical week, featuring a rich and dynamic scientific and social program. 31st of October was a dedicated day for EANS activities.

Warm congratulations to our colleagues from Serbia for a gathering of 1000 participants to celebrate Neurosurgical achievements!

Torstein Møling, EANS President

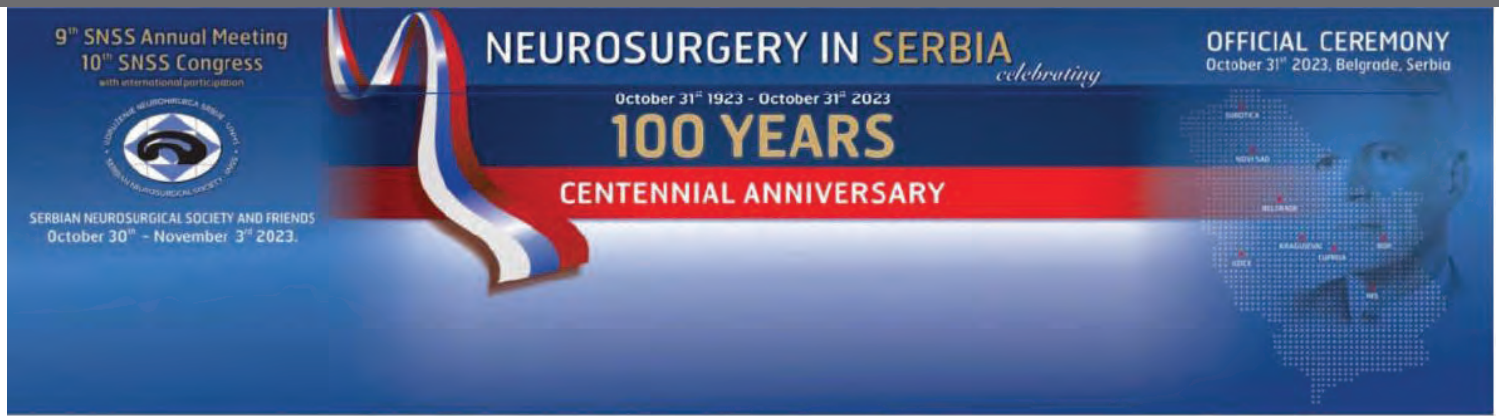

Lukas Rasulic, President of the Serbian Neurosurgical Society,
Co-President of the Meeting

Danica Grujić, Minister of Health of Serbia

EANS newsletter

Superb meeting dear Lucas. Thanks
Ezio (Concezio Di Rocco)

Dear Dr. Lukas Rasulic, Secretariat, and Organizing Committee of SNSS, this year's 9th SNSS Annual Meeting and 10th SNSS Congress, celebrating the Centennial Anniversary of the Neurosurgery in Serbia was extraordinarily successful and well organized one! I enjoyed the meeting very much and do appreciate all the warm hospitality and thoughtful, delicate preparations.

Dear Dr. Rasulic! Your team was the best I've ever seen! Thank you so much for ALL! I'm looking forward to meeting Serbian friends again in the near future.

*All the best,
Se-Hoon Kim, from Korea*

*Dear Lukas! Thank you very much for kind invitation to Belgrade and congratulations to a wonderful meeting!
Martin Smrcka*

*Dear Lukas,... I wanted to congratulate you on the high-level congress, thank you for the wonderful hospitality, and for last night's epic, there's no other term to describe it, evening...
Simone Peschillo*

*Dear Lukas
we would like to thank you for the magnificent hospitality, full of attention and friendship for us. The Congress has been successful on the scientific side and on the pleasure side. compliments to all your team that was always present. The scientific presentations have been chosen in a productive way. The evening was full of fantastic atmosphere. Again great compliments to you, fantastic host and organizer.
With forever friendship
Giovanni and Vittoria Broggi*

*Dear Prof Rasulic, the Belgrade meeting was a real success. I am very pleased to have listened to all the great names in current Neurosurgery. With this opportunity I want to thank you cordially for inviting us, almost the whole faculty of Acibadem neurosurgery.
Looking forward to meeting you again soon.
Kindly,
Koray Özdoğan, MD*

Thanks for your hospitality and see you soon Franco Servadei

*Dear Lukas: That was a spectacular event. Congratulations and thank you for the invitation.
Best, Florian Ringel*

*Dear Lukas, Dejan and the rest of the team
Thank you so much for such a wonderful event we had! Unforgettable dinners and incredible scientific level!
Let's keep in touch, KOR!!
Mariano Socolovsky*

*Dear Sir, ... Thank you very much for the wonderful and amazing conference. Hope to see you soon in Dubai.
Regards, M Alolama.*

I had the great honor to attend the Conference dedicated to the 100th anniversary of Serbian Neurosurgery.
The most sincere congratulations to my mentor and the President of Serbian Neurosurgical Society Prof. Dr. **Lukas Rasulic** for the extraordinary organization of the Conference, for his ability to bring to Serbia the strongest names in this field.

This was an extraordinary opportunity for those of us who are not surgeons, but in practice we often encounter injuries where the neurosurgical opinion is of inescapable importance (such as discussions, facets fractures injuries, etc.) to hear the latest findings and choices in treatment methods.

Big thanks to my friends for the great company, for sharing their knowledge and for the great time @Andrija Savic, Milan Lepic, Stefan Mandic-Rajcovic @Marko Jovovic, Stefan Radojevic Aleksa Micić Filip Vitošević Slavko Djuraskovic

Debora Garozzo • 3rd+

Delighted to have been invited faculty in the outstanding conference organised by my dearest friend Lukas Rasulic to celebrate the centennial of Serbian Neurosurgery.
A memorable scientific event with an exceptional, high quality session on peripheral nerve surgery.

Proud to be Honorary Member of the Serbian Society of neurosurgery

Hello Lukas: I am safely home in Philadelphia, with a storehouse of happy memories from the Belgrade congress this week. I am so glad that I was able to come and join you. Thanks again for the invitation and the hospitality, and my congratulations on a high-level professional congress which everyone could enjoy.
Best – Chris (Christopher M. Loftus, MD)

Dear Professor Rasulic and Members of the Serbian Neurosurgical Society, Dear Friends,
I would like to express my sincere appreciation for your kind invitation and great hospitality during the SSNS 100 Years Anniversary Meeting in Belgrade. I enjoyed meeting and spending some great scientific and friendship time with all of my colleagues and friends. Again, thank you.
Kenan Arnautovic

Thank you so much for your invitation. Your centennial anniversary was a great succes, I was very happy to be part of it
Herbert Rooijackers,

Der Lukas! I returned well at home with very good memories from Belgrad and your the so successful celebration of 100years neurosurgery in Serbia-and especially Since the first neurosurgical "through the nose" in 1923 is also my topic , since over 50 decades. Thank you so much for this wonderful "global congress"! My sincere compliments to you and the organising committee for such a perfect highly professional and effective organisation in between (airport) arrival and departure and your warm hospitality! Dear Lucas, you have the natural gift to bring all these sometimes controversial personalities together! I personally enjoyed to meet mainly the "old guys" again after longer time, but met also a number of younger ones and still could learn and was stimulated by this and that. The social highlight for me was the evening in the "National Theater" with you as successful entertainer! However a second, parallel career on this stage - you have been a very promising actor and promoter- could be too time consuming. The neurosurgical community loves to keep you as long as possible within their own rows to enjoy and profit(!) from your gifts! My sincere compliments to you and the organising committee for such a perfect congress, the highly professional and effective organisation in between (airport) arrival and departure! Good luck and success for futural events and especiaaly for your personal welfare, dear Lucas!

Cordially Yours
Rudolf Fahlbusch

Dear Mr Rasulic, it was an absolute pleasure to be part of your Centennial event. Thank you very much for inviting me to Belgrade.

Aurelia Peraud

Lukas, an honour and pleasure to attend such a wonderful celebration. Team UK had a terrific time, the science, camaraderie and social events were faultless. The organisation from the moment we arrived until we stepped aboard our return flights was faultless. I don't think any of us had been to an event like the Lafayette Club: a most memorable occasion. The Ceremonial Dinner was also a highlight: I didn't know Carlo was a pianist! A genuine well done to you and your amazing team of colleagues. You should be proud and have a relaxing weekend.

Beat wishes
Peter Whitfield

It was amazing experience. Thank you a lot for extraordinary hospitality.
Dragan Savic

Dear Lukas and your amazing team, the conference and social events were SPECTACULAR!! Thank you so much for inviting us, for your hard work & dedication, and for hosting such a memorable event.

Eric Zager

Lukaš, puno ti hvala za poziv na ovaj sastanak isto u ime od Daniel Staribachera! Jako nam je drago bilo da smo došli. Čestitam ti na kvalitet i odlični nivou od pretrage. Moram ti iskreno reći da je to bilo naj bolji oraganisaran sastanak na kojem sam ja bio! Drago mi nam bilo ako nas opet posvaš i drugi put.

Lepi postav,
Guenther

Dear Lucas! It was a great event! I was happy to attend it! Thank you very much for your invitation! Hopefully see you in Moscow in the nearest future!

Sincerely yours,
Dmitry Dzukaev

Dear Lukas, thank you once again for your very warm hospitality and tremendous effort to organise such an event with such a great selection of the neurosurgical elite! This was clearly a unique and memorable event and I am privileged to be part of it, but also glad my wife could see at least some of it.

It was great to observe the support you had from your family, and I sincerely hope that over following years we will have more opportunities when our wives could share their experiences.

I have indeed took some photos and will great pleasure share them with you hopefully by the end of this week.

Centennial Anniversary of Neurosurgery in Serbia.
Belgrade
Oct 30th - Nov 03rd, 2023

Dear Lukas.

The Centenary of the Serbian Neurosurgical Society was a great Historical, Academic, and Social event where, under your direction, a bond of unity and friendship was achieved between the Neurosurgeons of the World.

Congratulations and thank you very much for the invitation.

An effusive greeting,
Alfredo Pedroza

Dear Lukas, what a fantastic conference! I felt very privileged to attend, and it is a testimony to your reputation (and powers of persuasion!) that so many prominent figures came from all over the world. The scientific content was outstanding, and of course the social events were fabulous! None of us will ever forget the evening at Lafayette... Thank you very much for your kindness in inviting me and the other SBNS members. I hope we will meet again soon.

Best wishes
Alistair Jenkins

Dear Lukas, I sincerely congratulate you on your congress held in honor of the 100th anniversary, with excellent academic content, distinguish speakers and nice social activities. I would also like to thank you very much for your unique hospitality and always smiling face. I offer my greetings and respect, hoping to continue our scientific sharing and see you in new activities and congresses.

Thank you very much indeed
Sincerely yours
Mustafa Berker

Great Professor, Lukas Rasulik, My dear friend,

I would like to take this opportunity to convey to you some elements that I consider relevant following the exceptional Congress of the Serbian Neurosurgical Society, 100 years of neurosurgery in Serbia

The congress was exceptional. The organization was at the highest level. I understood from the data presented that there were over 300 papers accepted and over 350 invited speakers from all over the world. This Congress is probably the most formidable Congress in the East European Countries and represents a total recognition of your activity and of the Society. **THE CONGRESS REPRESENTED A PERFECT RAPPROCHEMENT BETWEEN ALL PARTICIPANTS AND A REAL NEUROSURGICAL FRIENDSHIP ALL OVER THE WORLD.** It remains only at the level of Conclusions **CONGRATULATION CONGRATULATION.**

The Romanian Society of Neurosurgery has fully done its duty through Professors Stefan Florian, Horia Ples and Marcel Ivanov; the group of residents from Cluj participated in the Young Neurosurgical Corner and we thank you for this openness and closeness

Cu aleasa consideratie,

Prof. Alexandru Vlad Ciurea MD., PhD., MSc., Dr. h.c. Mult.

Dear Lukas and the Organizing Committee! Thank you very much for an opportunity and honor to be a part of the faculty at this meeting, your generosity and hospitality. This was a very memorable event and I personally looking forward to meeting you again soon in Belgrade, Chicago or other international events!

Hvala!

Sergey Neckrysh, MD

Dear Lukas, you organized an incredible event! The sky is not yet the limit with you. It was a pleasure for me to participate. See you soon, wishing you many projects in the meantime - I have noticed you never stop ;-)

Kind regards,

Michaël Bruneau

Drug moj, kongres je bio odlicnan... svaka cast

Ibrahim Omerhodzic

Thanks and congratulations for the perfect organization!

Paolo Cappabianca

Dear Prof. Rasulic, I am Sorry I couldn't say goodbye to you because I left the Congress venue early in the morning. Thank you for everything. Everything was more than perfect and was planned very well in every detail. Congratulations you did a veery great job. I hope I can welcome you in Istanbul at least as your generosity and kindness. It will be a great pleasure for me to have you as our honorable guest in our next cadaver course (May 23 – 25 2025). By the way, I would like to point out that I would be very happy if I could support you about raising and developpe the functional neurosurgery in Serbia.

See you soon I hope and take care.

Atilla YILMAZ, M.D.

Dear Prof Lukas, I would like to place on record my sincere appreciation of the wonderful conference organised by you and your team. I have attended many meetings across the world, but in my memory this meeting was the best because of the superb organization, perfection and great hospitality.

with thanks and best regards

S K Gupta, FAMS

Hi Lukas, Congrats with your successful 100 years anniversary congress. Hopefully it was very joyful.

Yours sincerely

 Clinic for Neurosurgery, Clinical Center of Serbia
 Head of Department of Peripheral Nerve Surgery

Dear Prof. Lukas Rasulic!

On behalf of the Russian delegation let me sincerely thank you, the Organizing & Programme committees for arranging this memorable event – the centennial Anniversary of neurosurgery in Serbia. The history of Serbian neurosurgery is really impressive and, no doubt, you have the right to be proud of what has been reached by your society for this long period of time.

The scientific programme of the 9th SNSS Annual Meeting and 10th SNSS Congress was brilliant and we all had a unique chance to listen to outstanding leaders of the neurosurgical faculty from all over the world. We are still under a great impression of this unique event, which was the comprehensive and educational experience for all of us.

We can't but say about the social programme as well, because we really enjoyed the Opening ceremony and Ceremonial dinner in the National theatre of Belgrade and Networking dinner in Lafayette club. We had the opportunity to enjoy the friendly atmosphere and company of colleagues and friends from around the world.

Let me also tell you that we enjoyed staying in Belgrade, this beautiful, friendly city with its own charm and nice people around who were always ready to help us whenever any assistance or advice was needed. We really felt like at home.

Please, convey our congratulations to all members of the Organizing Committee and everyone engaged whose constant care and great professionalism made our stay unforgettable.

We hope for our future professional and personal cooperation!

Yours sincerely,

Dear Prof. Rasulic,

On behalf of the National Medical Research Radiological Centre of the Ministry of Health of the Russian Federation and Association of oncologists of Russia I would like to express my sincere gratitude for your invitation to join the 100 years of Neurosurgery Celebration in Serbia and present the lecture at the 9th SNSS Annual Meeting and the 10th SNSS Congress on 31 October-3 November 2023.

I would like to confirm our intention to further cooperation and the experience exchange in the field of cancer diagnostics and treatment between Serbian and Russian specialists.

Let me express my wish and hope that our future wide scale scientific conferences on oncology subjects in Russia will be attended by the specialists of Serbia and by you personally.

I would like to take this opportunity and invite you and your colleagues in Moscow any time suitable in order to discuss further cooperation perspectives.

Sincerely yours,

Prof. Andrey Kaprin
NMRRC Director General,
Chief Oncologist of the Ministry of Health of Russian Federation,

My dear Lukas, Congratulations! It is clear that your Centennial anniversary was an outstanding event! I just want you to know how much I personally appreciate all that you do for neurosurgery. You are loved and admired by our colleagues around the world, including me!

Fondly,
Gail Rosseau

Dear Lukas,

Thank you for the invitation to be part of your fantastic meeting, it was such a great honor and pleasure to be invited and to be among this amazing Serbian family of neurosurgeons. I want to congratulate you for this OUTSTANDING organization of the congress. I would have to admit that this is one of the most and best organized meeting that I have been, not to mention the quality of the talks that were given. One should not forget this amazing hospitality that you did offer us, we all felt at home and among family. I am very grateful for the invitation. I would like to give you my cell phone, please feel free to reach out at any time .

Please stay in touch

Ali Alaraj

Dear Lukas, many thanks once again for a great meeting and, as usual, a fantastic, warm, hospitality. The dinner at the Belgrade Theater was unique, and the backstage with the Phantom unbeatable. I'm also truly grateful for your generosity in appointing me Honorary Member of both the SNSS and SENS, something I feel very honoured with. Looking forward to seeing you soon at Excom and then in Brussels for the Board.

Be well and all the best,

Francesco Sala

Dear professor

I would like to extend my sincere thanks and gratitude to all those organizing this international conference for the kind invitation, wonderful reception, generous hospitality, and excellent organization, and my full respect and appreciation to Professor Rasulic, with my wishes for continued progress and success. With my best regards from Egypt ☐☐ Dialedin Radwan

Hello, thank you very much for the great meeting you organised. We are now entitled to call it "Rasulic-quality"! Really, thank you for your great and old-style hospitality. We will not forget this 100yrs anniversary. Thank you very much
Alessandro Perin

Der Lucas, It's just phenomenal as usual. Tremendous congratulations
All my best Najia

Thank you! The organization of the Centennial Anniversary is most impressive - congratulations to all! My apologies for not being there in person but I look forward to virtual participation.
Best, Russell Andrews

Dear Lukas, Milos and SNSS colleagues, Congratulations on a fabulous meeting in Belgrade, the scientific program was absorbing and your hospitality quite incredible- truly a hard act to follow!
With warm regards
Graham Fieggen

Dear Professor, time to leave has arrived! I was really impressed from your organization. Without any doubt it was the best meeting I have ever attended to. Congratulation for your amazing job! Thank you for everything. I hope to see you soon
Michelangelo De Angelis

Dear All, congratulations once more for an outstanding Congress in Belgrade. This meeting was fantastic, I really appreciate your hospitality and give my full compliments for the organization.
Sincerely,
Adi Ahmetpahic, MD

Dear SNSS secretariat team,
First of all, I want to express my sincere gratitude for the fantastic organization of the meeting and my extended stay in Belgrade with the visit of Prof. Rasulić in clinic. The 9th Annual Meeting of the Serbian Neurosurgical Society (SNSS) was a remarkable event, commemorating a century of neurosurgery in Serbia. The combination of an insightful scientific program and engaging social and networking activities created a truly memorable experience in the beautiful city of Belgrade. With an impressive lineup of internationally renowned leaders in the field of neurosurgery, this meeting transcended its status as a mere national society gathering and proved to be a perfect manifestation of the motto "think global, act local". The program was impeccably organized, providing an excellent experience for both speakers and attendees alike and making sure, many of us will return.
Maximilian Mayrhofer-Schmid

Dear Professor Rasulic and panelists, Participating in the panel yesterday was a valuable learning experience for me, and I want to extend my thanks to all of you. I truly relished the opportunity. I wish you all the utmost success, and while I hope I won't require your medical services in the future, it would be my pleasure to cross paths with you once more. I would like to seize this moment to express my gratitude to the Serbian Neurosurgical Society and Professor Rasulic for orchestrating this fantastic event and extending an invitation for me to participate in this session.
I wish you all the best
Natali Delić, MScEE, MBA

Dear Lukas, I have been waiting for my emotions to subside before expressing my thoughts about the Congress event. However, that has not happened yet. I am still deeply impressed and moved by everything you have done to make it one of the most unforgettable events in neurosurgical history. It was remarkable in its scientific, technical, and social merits. It was simply the best! Thank you, Lukas, for your amazing leadership and true friendship. Your limitless efforts have made this event a huge success.
Best regards, my friend, Bruno Splavski

At the 10th **Serbian Neurosurgical Society** a significant event that also celebrating the Centennial Anniversary of Neurosurgery in Serbia, I had the privilege to give a talk on **Women in Surgery: Redefining Paths and Pushing Limits** and emphasize our substantial progress and the new paths being carved in this challenging specialty. I extend my sincere appreciation to Prof. Dr. **Lukas Rasulic** for the outstanding organization of the congress. Such gatherings are crucial not just for honoring our professional milestones but also for setting the stage for forthcoming breakthroughs and a more diverse surgical field. I encourage my colleagues, particularly the women in surgery, to maintain our dynamic progress. Inspiring by "The Prosecutor" a novel of Prof. Lee Dellon's, let's continue to be inquisitive, determined, and collaborative in our quest for brilliance.

Honored to have represented Jordan and **NeuroPedia.net** at the "100 Years of Neurosurgery in Serbia" conference! It was an incredible experience where I had the privilege to present 4 oral presentations, sharing insights and knowledge in the field.

Meeting prominent figures in neurosurgery, networking, and learning from their experiences was incredibly enlightening.

I would like to thank Prof. **Lukas Rasulic** for this opportunity and all those who made this congress very successful and fruitful.

It was an honor and pleasure to be a part of the meeting dedicated to the Centennial anniversary of Neurosurgery in Serbia, among more than 300 invited faculties from around the world. This was an excellent opportunity for exchanging knowledge, connecting, and friendship with international experts. Thank you, Prof. Lukas Rasulic, for inviting me and organizing this fantastic event.

I was pleased to meet my old friends and local hosts @ Andija Savic, Milan Lepic, Aleksa Micic, Miljan Mihajlovic, Vladimir Bascarevic, Mirko Micovic, Moma Jovanovic, Pero Vulekovic, Djula Djilvesi, Bojan Jelaca, Vladimir Puzovic, Stefan Radojevic and many others. Thank you for your hospitality and the great time we spent during the Congress.

Dear friends, it was a real pleasure discussing with you so interesting and avant-garde topics. Definitely, we are discovering unexplored territories and Shering our particular expertise will be a great advantage. I hope that our path will cross soon. Thank you Lukas for the outstanding hospitality.

Best regards,

Nikolay Gabrovsky, MD, PhD, DMSc

Dear all, It was an honor to be in such a distinguished company and participate as well as learn from the experts in different fields. At the same time, I was privileged to be a part of this extraordinary event organized by Prof. Rasulic.

Kind regards,

Mirko Mindoljevic

Dear all, thank you so much for organising this panel.

It was a pleasure to discuss with such high-quality faculty and experts.

Kindly Regards,

Zefferino Rossini

Dear All, same here. Discussions like the one we had are necessary and good. Special thanks to Nikolay for Moderating! Greetings to all from Hannover

Arya Nabavi, MD, PhD, MaHM, IFAANS

Dear Lukas, what a great week! How do I start to thank you? The scientific program and social events were an unforgettable experience. I left Belgrade with so many great memories – especially of old friendships renewed and new ones made! The hospitality and organization was unbelievable!!... I am so honored to be a member of the Southeast Europe Neurosurgical Society.

Hvala!!!! You are held in such high esteem by so many in the global neurosurgery community, myself included.

Thank you for all your hard work and example of professionalism – and friendship!

With much respect, Andrew Reisner

"100 Year of Neurosurgery in Serbia" provided a valuable platform for showcasing the advancements in the field. Olympus' Orbeye device, a 4K/3D exoscopic microscope, demonstrated the company's commitment to revolutionizing neurosurgery. Its advanced technology, compact design, and user-friendly interface make it a promising tool for enhancing surgical precision and collaboration among medical professionals. The successful participation of Olympus in this event highlights their dedication to advancing the field of neurosurgery and improving patient care. [#olympus](#)

Last week, I was invited to the 10th Annual [#Neurosurgical](#) Congress of [#Serbia](#) held in Belgrade to give a speech on "How to improve the success and accuracy in Deep Brain Stimulation surgeries". In this congress, where I also served as a session chairman, we also celebrated the 100th anniversary of the establishment of Neurosurgery in Serbia. In this congress, which was very comprehensive in terms of scientific content and social program and was very successful, it was very enjoyable to be together with our friends and colleagues from more than 30 different countries of the world, to share our experiences and to catch up.

I would like to thank especially to Prof. [Lukas Rasulic](#), President of the Serbian Neurosurgical Society and President of the congress, and the scientific committee of the congress for their kind invitation.

! Continue to raise the [#Neuromodulation](#), and shape the future's mind together.

🎉 Celebrating 100 Years of Serbian Neurosurgery! 🇷🇸
Kudos to Prof **Lukas Rasulic** for orchestrating an incredible truly Global neurosurgical event in Belgrade, commemorating a century of neurosurgery in Serbia!
With 1000 participants from 50 countries a joint venture with numerous major neurosurgical societies **European Association of Neurosurgical Societies (EANS)**, SBNS, SeENS, World Academy of Neurological Surgery, IANA, SINCH, CAANS, Hellenic Neurosurgical Society, Turkish Neurosurgical Society etc the scientific and social programs were outstanding, offering valuable insights and fostering collaboration among neurosurgeons from around the world.
Thank you **Lukas** for your incredible hospitality and for pushing the boundaries!

Prof DR Lukas Rasulic na celu organizacije kongresa "100 godina neurohirurgije u Srbiji"

Povodom svečanog obeležavanja jubileja 100 godina postojanja neurohirurgije u Srbiji s ponosom ističemo da je naš kolega, profesor DR Lukas Rasulic bio na čelu organizacije istoimenog kongresa. Na ovom međunarodnom susretu pre svega svetskih stručnjaka iz ove oblasti medicine koji su dali izuzetan doprinos razvoju edukaciji, inovacijama i sto je najvažnije uspesnijem lečenju, takođe su prisustvovali i ministarka zdravlja Srbije Danica Grujičić, i eminentni profesor doktor Madid Sami predsednik Internacionalnog instituta za neurološke nauke koji već punih 50 godina prati i učestvuje u razvoju neurohirurgije u Srbiji. Obzirom na značaj ovakvog jubileja na kongresu su prisustvovali i ministarke obrazovanja i nauke kao i predstavnici diplomatskog kora.
Biti neurohirurg je lako, to je isto kao kad vozite bicikl, osim što je bicikl u plamenu, vi ste u plamenu i sve je u plamenu", ovim rečima je profesor doktor Lukas Rasulic, predsednik Udruženja neurohirurga Srbije i generalni sekretar Evropske asocijacije neurohirurških udruženja, simbolično opisao neurohirurgiju, jednu od najkompleksnijih grana u medicini.
Izuzetna je čast da u redovima stručnjaka Medicinskog Sistema Beograd, imamo priliku da sarađujemo i sa prof Dr Rasulicom, i naročito zahvalni za sve što čini na polju neurohirurgije po pitanju razvoja, istraživanja i unapređenja, kako u Srbiji tako i na evropskoj i svetskoj sceni. **Lukas Rasulic**

During an eventful neurosurgery week from October 30th – November 3rd, 2023, we were proud to be the general sponsor of the **Serbian Neurosurgical Society** SNSS Congress. The global theme of the meeting, "Focus. Dedication. Specialization" resonates with us as we strive to improve surgical outcomes, along with providing good ergonomics for the surgeons with our **BHS Technologies** RoboticScope® which was highlighted the whole duration. Kudos to Prof. Dr. **Lukas Rasulic**, such an amazing event!

Congratulations to our esteemed colleagues in **#Serbia** for organizing the 9th **#SNSS** Annual Meeting and 10th SNSS Congress, attracting 1000 neurosurgeons from across Europe to the Serbian capital, Belgrade and celebrating the 100th anniversary of Neurosurgery in the country. The events featured a dynamic scientific and social program, while the 31st of October was dedicated to activities by the EANS. **#Neurosurgery #Belgrade #Serbia**

We extend our heartfelt gratitude to each of you for being a part of this remarkable congress, celebrating 100 years of neurosurgery in Serbia.

Your presence and support have contributed to the success of this event, and your dedication to advancing Serbian neurosurgery is deeply appreciated.

Thank you for making this centennial celebration truly special.

We are looking forward to welcoming you all to Belgrade, Serbia again and always!

PROVISIONAL SCIENTIFIC PROGRAMME

as at 28 November 2023

DAY 1	SATURDAY 2 DECEMBER 2023
Session I	Neuro-oncology I
Moderators	Imad N. Kanaan; Luis Borba
08h00 - 08h05	Welcome and introduction of invited guest
08h05 - 08h20	Evolution & revolution in pituitary surgery - Nelson Oyesiku, (USA)
08h20 - 08h30	Anterior interhemispheric approach to the sella and III ventricle - Miguel Angel Arraez, (Spain)
08h30 - 08h40	Resection of large and giant pituitary adenomas: How to achieve gross total resection and improve preoperatively altered vision - Kenan Arnautovic, (USA)
08h40 - 08h50	Exo-endoscopic surgical treatment of craniopharyngiomas in children - Albert Sufianov, (Russian Federation)
08h50 - 09h00	Management of craniopharyngioma in pediatrics - Fredrick Boop, (USA)
09h00 - 09h10	Round table discussion
09h10 - 09h20	Grading scale to help define resectability of sphenoorbital meningiomas: Experience in 100 cases - William Couldwell, (USA)
09h20 - 09h30	Falcotentorial Meningiomas, maximize extent of resection and avoidance of complication - James Liu, (USA)
09h30 - 09h40	Management of foramen magnum meningiomas - Najia El Abbadi, (Morocco)
09h40 - 09h50	Endovascular stenting as a treatment of symptomatic venous hypertension from meningiomas invading intracranial venous sinuses - Thomas Santarius, (UK)
09h50 - 10h00	The genomic landscape of meningiomas: Will the gene prove mightier than the knife? - Gelareh Zadeh, (Italy)
10h00 - 10h10	Subcranial Approach: a straightforward approach to the invasive anterior fossa tumors- Antonio Aversa, (Brazil)
10h10 - 10h20	Microsurgery of vestibular schwannoma following failed radiosurgery: A personal experience of 25 cases - Basant Misra, (India)
10h20 - 10h30	Hearing function pre and after surgery in CPA tumors - Michihiro Kohnô, (Japan)
10h30 - 10h40	Round table discussion
10h40 - 11h00	Refreshment Break
