South East Europe Neurosurgical Society (SeENS)

INTRODUCTION

Dear Colleagues,

We would like to inform You that a South East Europe Neurosurgical Society (SeENS) has been established (www.seens.eu)

SeENS was established by neurosurgeons from Croatia, Serbia, Slovenia and Bosnia and Herzegovina in October 2012. and registered in Zagreb, Croatia in November 2012. as a non-profitable, non-political Society of neurosurgeons that are willing to act *bona fide* in order to achieve better communication and collaboration between neurosurgeons from SE part of Europe.

Upon establishment the invitation to other states of the region (Macedonia, Montenegro, Albania, Kosovo, Bulgaria, Romania, Hungary, Greece, Cyprus and Turkey) was sent with a goal that neurosurgeons from all over the SE part of Europe actively participate in this Society.

After intense meetings, followed by an constitution hall and three executive board meetings, the founding members finally met in Sarajevo. The Sarajevo Executive Committee meeting was organized on 7th June 2013 and this is where the South East Europe Neurosurgical Society took its first breathe as a fully-fledged, regulated and constituted scientific society. Wasting no time, **the Executive committee meeting brought final shape to SeENS's Statute, the internal regulatory bodies and the Presidency have been formed and accepted, the Society's mission and vision have been committed to paper and the Executive committee welcomed in its final roster.**

All the neurosurgeons and neurosurgical Societies not only from SE part of Europe but from the whole Europe are welcome to be members and to actively participate in this regional neurosurgical Society.

The European Association of Neurosurgical Societies (EANS), the Central European Neurosurgical Society (CENS) and World Federation of Neurosurgical Societies (WFNS) have been informed about the establishment of the SeENS. We have to emphasize that SeENS idea and Society have full support from the President of the EANS (Professor Vladimir Benes), President of the CENS (Professor Juraj Steno) and President Elect of the WFNS (Professor Yong-Kwang Tu).

Society have full support from the President of the EANS (Professor Vladimir Benes), President of the CENS (Professor Juraj Steno) and President Elect of the WFNS (Professor Yong-Kwang Tu).

Since the whole concept behind SeENS is the same as the governing principles driving **EANS** (European Association of Neurosurgical Societies) and **WFNS** (World Federation of Neurosurgical Societies), the newly formed **SeENS immediately submitted it's applications for affiliation** within these two world renowned institutions. On both sides the application was met with great approval - the EANS will discuss accepting SeENS as its affiliate member during the next Annual meeting scheduled to be held in Tel Aviv, from 11th - 14th November 2013. The WFNS will announce the date of the proclamation. It was decided that the first SeENS Congress should be organized in Belgrade October 30th–November 2nd 2013.

The SeENS Congress was officially presented to the EANS and it is listed in the official EANS list of 2013. events (www.eans.org/events/).

In the hope of strengthening the SeENS idea and moral values of integrity, teamwork and sharing it was built on, we look forward to receiving your support.

Once again we would like to invite You to the First SeENS Congress in Belgrade October 30th-November 2nd 2013. It would be our great pleasure if You could find time in Your busy schedule and take an active part at the Congress.

Looking forward to our future collaboration.

Sincerely,

Krešimir Rotim
SeENS President

Lukas Rasulić
SeENS Vice-President

Tomislav Sajko
SeENS Secretary

South East Europe Neurosurgical Society - The Founding Editorial

As with all initiatives, the **South East Europe Neurosurgical Society (SeENS)** began as an Idea - an idea thoroughly engulfed in the pillars of knowledge, sharing, support and advancement through borderless collaboration. It is based in the basic human thirst for knowledge and betterment of oneself, as well as his/hers surroundings. In short, SeENS is all about the people it brings together.

Having all this in mind, and given the fact that we come from the Balkans (a rather turbulent area to live and work in, even in the best of times) we rather soon realized the importance of teamwork, support and sharing. For without any one of these three, chances are you won't make it in this place - and this is no understatement.

Since the beginning of my career, I had the luck and privilege to meet many like-minded people that soon became my teachers and, as the years passed us by, have grown into people I fondly call friends. Our mutual friendship is one based on professional interest, similar goals and hunger for knowledge - and, as a team, we slowly but steadily managed to gather all of these. Of course, as the saying goes, the more we've been learning the clearer the lacks and gaps in our knowledge...but it was much easier to point them out to each other and even easier to patch them with the techniques and experience we were missing. And this goes on 'till this day.

So, having all the ingredients needed for the Idea's growth and development, such as clear guidelines, common goals and good professional climate, the SeENS slowly but surely started to surface in the real world. The South East Europe Neurosurgical Society began taking shape, and as it did so, so was our mission clearer to all participating parties...and there is a number of them, as will be outlined in more detail soon.

SeENS - Laying the Foundations

The South East Europe Neurosurgical Society is to become a professional society, a sort of guild, dedicated to the betterment of all things related to Neurosurgery as a whole. The region of its influence, as the name clearly states, is that of South East Europe. The soon-to-be Society has to provide support to all neurosurgeons and help them advance in their craft. By doing so, it does not only influence their individual lives, but the region as well - with more educated, trained and adapted neurosurgeons, faster and more reliable operations, better recovery rates, more success stories are more realistic in obtaining...the possibilities are endless!

It was during two congresses of Croatia's Neurosurgical Society, in 2008 (Dubrovnik) and 2011 (Opatija), that the idea and need for a unified Southeast Europe Neurosurgical Society was made clear. The society, as a governing body, was to unite the whole region and promote the values of the EANS (European Association of Neurosurgical Societies) and WFNS (World Federation of Neurosurgical Societies). At this moment in time did **Prof. dr Krešimir Rotim** (Zagreb, Croatia), **Prof. dr Lukas Rasulić** (Belgrade, Serbia) and **Dr Tomislav Sajko** (Zagreb, Croatia) started debating the possibility of creating the SeENS, as well as what would be needed for this idea to become reality.

Being pragmatic (as all neurosurgeons are), the discussions soon transformed into action – and so their work started taking shape, like a statue emerging under a sculptor's chisel.

The **October 2012** EANS Annual meeting (held from 24 - 27th October 2012 in Bratislava, Slovakia) was an excellent opportunity to further discuss the SeENS idea. And so it was that, during the EANS meeting, did **Prof. dr Krešimir Rotim**, **Prof. dr Lukas Rasulić**, and **Dr Tomislav Sajko** conclude that the SeENS is to be founded. Previously, the founding of SeENS has also been discussed with **Dr Ibrahim Omerhodžić** (Bosnia and Herzegovina), **Prof. dr Marjan Koršič** (Slovenia) and **Prof. dr Aleksandar Čaparovski** (Macedonia) **Dr Novak Lakičević** (Montenegro) – it was that with full approval and support of the mentioned parties, have we proceeded into forging the South East Europe Neurosurgical Society. Given the international nature of the Society, one that is aimed at providing a cross-cultural and multilateral bridge, it was decided, through a unified stance by all above mentioned parties, that the SeENS Founding act will be based on Public International Law. As their next meeting point they have chosen Belgrade.

During their discussions it was decided that SeENS, as a Regional society that is to become a representative of Southeast Europe, is to be registered in Zagreb (Croatia) while the 1st Congress of the Southeast Europe Neurosurgical Society (31st October - 2nd November 2013) is to be held in Belgrade. Belgrade has been given this honor as a tribute to two great landmarks in the history of Serbian Neurosurgery – the celebration of 90 years of Neurosurgery in Serbia (making it one of the oldest Neurosurgical department in the Region), as well as 75 years of the Clinic for Neurosurgery at the Clinical Centre of Serbia.

SeENS Meeting reminder and international participation 2024

Southeast Europe Neurosurgical Society and Joint Meetings

MEETINGS, CONGRESSES AND COURSES

The 1st Hannover Cybernetics & Neurobionics Summit
January 12, 2024, Hannover, Germany

EANS Board Meeting
January 27, 2024, Edinburgh, UK

EANS Training course TUMOUR
January 28-31, 2024 | Edinburgh, UK

9th Emirates International Neurosurgical Conference, Joint venture with SeENS
February 2-4, 2024, Dubai, UAE

NervClub Annual Conference "Neuropathic Pain"
February 22-23, 2024, Würzburg, Germany

1st WFNS International Global Neurosurgery Conference
February 23-26, 2024, Peshawar, Pakistan

12th Neurosurgical Masterclass
March 8-10, 2024, Cluj-Napoca, Romania

Contralateral C7 transfers: Understanding Techniques, Results, and Critical Perspectives
March 22-24, 2024, New York, USA

37th Annual Scientific Congress of Turkish Neurosurgical Society
April 18-21, 2024, Antalya, Turkey

Airlangga International Neurosurgery Masterclass 2024
April 26-27, 2024, Surabaya, Indonesia

AANS 2024 Annual Meeting
May 3-6, 2024, Chicago, USA

SENEC Congress "Neurosurgery of the five continents in Malaga"
May 8-10, 2024, Malaga, Spain

WANS meeting
May 11-12, 2024, Malaga, Spain

EANS TC | VASCULAR
May 19-23, 2024, Copenhagen, Denmark

100 years of neurosurgery
May 21-24, 2024, Toronto, Canada

69th meeting of the Scandinavian Neurosurgical Society
June 3rd to 5th 2024., Aalborg, Denmark

1st Congress of Yasargil Microneurosurgery Academy
June 5-7, 2024, Istanbul, Turkey

Indonesian Neurosurgical Society
June 6-9, 2024, Banten, Indonesia

75th Annual Meeting - German Society for Neurosurgery

June 9-12, 2024, Göttingen, Germany

15th Congress of the Baltic Neurosurgical Association
June 14-15, 2024, Riga, Latvia

15th BHAAAS International Symposium
June 2024, Bosnia & Herzegovina

EANS TC | SPINE
September 1-5, 2024, Prague, Czech Republic

Sunderland Society Meeting
September 13-16, 2024, The Grand Hotel, Mackinac Island, Michigan, USA

2024 CNS Annual Meeting
September 28 – October 02, 2024, Houston, Texas

6th SeENS Congress
October 9-11, 2024, Budapest, Hungary

EANS 2024 Congress
October 13-17, 2024, Sofia, Bulgaria

CLAN 2024
October 20th - 25th, 2024, Santiago-Chile

2024 Narakas Club, 23rd International Symposium on Brachial Plexus Surgery
October 24-26, 2024, Torino, Italy

The 1st Hannover Cybernetics & Neurobionics Summit 2024

12 January 2024

Starting at 11:00

Get access to Live-streaming !

REGISTER HERE

**The 1st Hannover Cybernetics & Neurobionics Summit
is held in Hannover, the city of science and health care.**

This Summit aspires to present cutting edge transdisciplinary translational solutions in Cybernetics and Neurobionics to researchers, clinicians and industry and to discuss jointly the future direction of R&D and clinical implementation in this highly dynamic and unique field.

OF NEUROSURGICAL SOCIETIES

EANS Training Course Tumour

Programme

28-31 January 2024 | Edinburgh, UK

Training Course Chair: Martin Lehecka
Local Host: Andreas Demetriades

DAY 1 | 2 February 2024 | FRIDAY

SCIENTIFIC PROGRAM

TIME	ROOM - A	SPEAKER
08:00 - 09:00	Registration	
09:00 - 09:15	Opening Ceremony	
09:15 - 10:30	Skull base - Chair: Alistair Jenkins (UK), Daljit Singh (India), Shahid Ayub (Pakistan)	
09:15 - 09:30	Can Skull base expertise be transferred to a newly established healthcare facility? Lessons learned at the Cleveland Clinic Abu Dhabi	Florian Roser (UAE)
09:30 - 09:45	Treatment strategy in petro-clival meningioma	Basant Misra (India)
09:45 - 10:00	Spheno- orbital meningiomas : second chance to life	Mohammad Al Asha (UAE)
10:00 - 10:15	Endoscopic transcortical trans ventricular fenestration of cystic craniopharyngiomas and reservoir placement	Riaz Raja (Pakistan)
10:15 - 10:30	Discussion	
10:30 - 12:15	Neurotrauma - Chair: Tariq Khan (Pakistan), Sarah Olson (Australia), Virendra Deo Sinha (India)	
10:45 - 12:15	Neurotrauma as a notifiable condition	Tariq Khan (Pakistan)
10:45 - 11:00	Philosophy of Neurotrauma Care	Mohan Sharma (Nepal)
11:00 - 11:15	Neurotrauma from fall accidents in Ethiopia	Tsegazeab Laeke (Ethiopia)
11:15 - 11:30	Managing Neurotrauma in a vast landscape	Sarah Olson (Australia)
11:30 - 11:45	Outcomes in paediatric traumatic brain injury, What AI has to offer?	Virendra Deo Sinha (India)
11:45 - 12:00	Keynote Lecture: Future of Spinal Injury Recovery	Salman Sharif (Pakistan)
12:00 - 12:15	Discussion	
12:15 - 14:30	Friday Prayer & Lunch Break	

1 *Program Subject to change

MEMBERSHIP

Southeast Europe Neurosurgical Society (SEENS) welcomes neurosurgeons living and working in the Southeast Europe or the rest of the Europe and world to become active members of the Society.

MEMBERSHIP TYPES & FEES

Full: fully trained and qualified neurosurgeon practicing within SouthEuropean countries.
Price: 50 Euros per year

Junior*: neurosurgeon in training
Price: 25 Euros per year

* Applications for Junior Membership must be accompanied by a letter from the applicant's chief of Training programme confirming the "Junior" status. Please note that all Junior members will automatically be upgraded to Full membership six years after application.

Associate: full member of a non-southeuropean neurosurgical society or member of a society with an interest in neurosurgery
Price: 50 Euros per year

As an SEENS Member you will benefit from:

- Discounts on standard registration fees to SEENS meetings
- Regular information by email about neurosurgical news and events
- Use of our distribution lists to share information with other members

President

Professor Lukas Rasulić, MD, PhD
Department of Neurosurgery
Clinical Center Serbia, Belgrade, Serbia
E-mail: Lukas.Rasulic@seens.eu

Vice-President

Tomislav Sajko, MD, PhD
Department of Neurosurgery
UHC Sisters of charity, Zagreb, Croatia
E-mail: Tomislav.Sajko@seens.eu

Secretary

Dr. Venko Vilipce, MD, PhD
University Department of Neurosurgery,
Medical Faculty, Skopje

Honorary President

Professor Krešimir Rotim, MD, PhD
Head, Department of Neurosurgery,
UHC Sisters of charity, Zagreb, Croatia
E-mail: Kresimir.Rotim@seens.eu

Vice-President

Dr. Ioan Stefan Florian, MD, PhD
University of Medicine and Pharmacy
"Iuliu Hatieganu" Cluj-Napoca
